Welcome Message:
International Pediatrics Conferences (OLCPC-2019), November 11-12, 2019 | Venice, Italy.

Dear Colleagues, Scientists, Researchers and Friends,

The aims and objectives of this unique Conference are to promote the highest standards for the management and support of patients in Neonatology and Pediatrics, and to offer the upgraded knowledge about recent developments in these fields. The advance and the effectiveness of childcare and the increase of the quality of patients’ life are the main purposes of the congress. This monumental event features lots of opportunities to network with partners from the entire World in an exciting environment whilst sensing an explosive burst in Translational Research & Applications to create innovations in Neonatology and Pediatrics.

Our personal goal is to open a Forum to facilitate the exchange of knowledge and experience and to invigorate the field with young scientists, researchers, business entrepreneurs and specialists in the regulatory affairs. The Conference will secure the participation of many established leaders in different specializations, and will open a green light for focusing on the generation of solutions to the many challenges existing today in the pediatric field. Specific proposals to encourage investment in innovation for the improvement of child health will also be presented.

In this sense, the theme reflects our willingness and enthusiasm to offer a really innovative and imaginative Program whilst presenting attractive lectures and sessions with well-balanced inputs from academia, industry and policy makers. The Conference will provide the ideal forum to stimulate ideas and establish collaborations as well as to initiate intense discussions to secure projects of the newest generations and to feature a highly interactive, stimulating and multi-disciplinary Program including workshops, plenary sessions and panel discussions. We are sure that you will find the meeting enlightening and inspiring. Come to share stimulating perspectives about the new frontiers in Neonatology and Pediatrics. We hope that, despite the intense scientific program, you will be able to get some glimpses of the wonderful Venice, one of the most fascinating city in the world. The charm of its canals, historical buildings, narrow streets, and romantic bridges will capture your eyes and your heart and will remain in your memory for ever.

You are Welcome: enjoy the Conference and the beauty of Venice!!!
